

# GW4 Secure Data Access Week 2022

Monday 31st October – Friday 4th November 2022

## SafePod Network: secure access to sensitive research data across GW4

A week of promotional events to raise awareness of the secure data access environments available to GW4 researchers. Attend the GW4 SafePod Network webinar to find out about the SafePod network, and then take a look at facilities in person during open days later in the week. Webinar attendees will hear from representatives of the SafePod Network, from the Office for National Statistics (a participating Data Centre), and from researchers who have practical experience of using these facilities.

## Programme

Webinar: Introduction to the SafePod Network - Tuesday 1<sup>st</sup> November 2022, 12-1pm
